Explanatory Note

U.S. foreign agricultural trade statistics in this report include official U.S. data based on compilations of the Bureau of the Census. Agricultural commodities consist of (1) nonmarine food products and (2) other products of American agriculture which have not passed through complex processes of manufacture such as raw hides and skins, fats and oils, and wine. Such manufactured products as textiles, leather, boots and shoes, cigarettes, naval stores, forestry products, and distilled alcoholic beverages are not considered agricultural.

The trade statistics exclude shipments between the 50 States and Puerto Rico, between the 50 States and the island possessions, between Puerto Rico and the island possessions, among the island possessions, and in-transit through the United States from one foreign country to another when documented as such through U.S. Customs.

EXPORTS The export statistics also exclude shipments to the U.S. armed forces for their own use and supplies for vessels and planes engaged in foreign trade. Data on shipments valued at less than \$100 are not compiled by commodity and are excluded from agricultural statistics but are reflected in nonagricultural and overall export totals in this report. The agricultural export statistics include shipments under P.L. 665 (Mutual Security Act of 1954, as Amended), principally sales for foreign currency; under P.L. 480 (Agricultural Trade Development and Assistance Act, as Amended), and related laws; and involving Government payments to exporters. (USDA payments are excluded from the export value.) Separate statistics on Government program exports are compiled by USDA from data obtained from operating agencies.

The export value, the value at the port of exportation, is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port. The country of destination is the country of ultimate destination or where the commodities are to be consumed, further processed, or manufactured. When the shipper does not know the ultimate destination, the shipments are credited to the last country, as known to him at time of shipment from the United States, to which the commodities are to be shipped in their present form. Export shipments valued \$100-\$499 are included on the basis of sampling estimates.

IMPORTS Imports for consumption consist of commodities released from U.S. Customs custody upon arrival, or entered into bonded manufacturing warehouse, or withdrawn from bonded storage warehouse for consumption. The agricultural statistics exclude low-value shipments from countries not identified because of illegible reporting, but they are reflected in nonagricultural and overall import totals in this report.

The import value, defined generally as the market value in the foreign country, excludes import duties, ocean freight, and marine insurance. The country of origin is defined as the country where the commodities were grown or processed. Where the country of origin is not known, the imports are credited to the country of shipment.

Imports similar to agricultural commodities produced commercially in the United States and others that are interchangeable in use to any significant extent with such U.S. commodities are supplementary, or partly competitive. All other commodities are complementary, or noncompetitive.

Further explanatory material on foreign trade statistics and compilation procedures of the Bureau of the Census is contained in the publications of that agency.

Table 1.-- SUMMARY TABLE: Value of foreign trade, year beginning July 1,
1960-61 and 1961-62 1/

| Commodity or commodity group | Year beginning July 1 | |
|--|-----------------------|------------|
| | 1960-61 | 1961-62 |
| | 1,000 | 1,000 |
| | dollars | dollars |
| EXPORTS (Domestic) | | |
| Dairy products | 89,425 | 86,054 |
| Eggs and egg products | 19,222 | 16,949 |
| Meats and poultry | 125,005 | 145,815 |
| Oils, fats and greases, animal | 174,521 | 171,956 |
| Cotton, excluding linters | 936,799 | 663,002 |
| Fruits and preparations | 253,520 | 282,008 |

1/ Preliminary.

2/ Reported in value only.

3/ Excludes the number of "other hides and skins," reported in value only.

4/ Less than 500.

5/ Excludes barley, corn, oats, grain sorghums, and wheat for feed.

6/ Includes a small amount of certain foodstuffs other than agricultural.

Table 6.-- HISTORICAL SUMMARY: Value of agricultural imports (for consumption), averages 1914-18 to 1954-58 and annually 1929-30 to 1961-62
